

MASARU ALEJANDRO AYA MORIBE

Frontend Developer | JavaScript · React · Python

masaru.aya@gmail.com · +81-90-6006-4594 · Tokyo, Japan (Open to remote) · github.com/masarumoribe · [Portfolio](#)

PROFILE

Career-transitioning developer with a background as a senior bartender and F&B supervisor. I bring 7+ years of operational problem-solving, team leadership, and systems thinking into software — building web apps and tools that are both functional and intuitive. Completed the Meta Front-End Developer Professional Certificate and multiple full-stack bootcamps on Udemy. Currently building barbrain, an AI-powered bar management web app, and a 3D interactive portfolio using React Three Fiber. Fluent in Spanish and English; conversational in Japanese. Targeting frontend or full-stack roles in Tokyo or remote.

TECHNICAL SKILLS

Languages	JavaScript (ES6+), Python, HTML5, CSS3, SQL
Frontend	React, Vite, Three.js, React Three Fiber (R3F), Rapier, Drei, Tailwind CSS
Backend	Node.js, Express, Python
Tools	Git, GitHub, Vercel, VS Code, WordPress, Elementor
AI / APIs	OpenAI API, Anthropic API
3D / Design	Three.js, Meshy.ai, GLTF pipeline, Figma (basic)

PROJECTS

barbrain | Full-Stack Web App · AI Bar Management Tool

2026 – Present

- AI-powered assistant and inventory management platform built for bartenders and bar managers
- Stack: JavaScript, React, Node.js, Python, SQL, OpenAI API
- GitHub:** github.com/masarumoribe

3D Interactive Portfolio | Personal Project

2026 – Present

- Midnight Ghibli-style 3D bar scene built with React Three Fiber, Rapier physics, and custom GLTF models
- Features physics-enabled skill bottles, project coasters, and fully custom 3D environment models sourced via Meshy.ai
- Live:** my-portfolio-kappa-wine-70.vercel.app

Chika Hula | Freelance Client Project

2024

- Built a production website for a Tokyo-based hula dance school
- Stack: Vite, React — deployed and handed off to client
- Live:** chikahula.com

The Sarau | Freelance Client Project

2025

- Built a website for an art curation collective
- Stack: WordPress, Elementor
- Live:** thesarau.me

EDUCATION & CERTIFICATIONS

Meta Front-End Developer Professional Certificate | Coursera / Meta

Completed March 2024

- 9-course program covering HTML/CSS, JavaScript, React, Version Control, UX/UI Design, and coding interview preparation

The Complete Full-Stack Web Development Bootcamp | Udemy · Dr. Angela Yu

100% complete

- Full-stack JavaScript, React, Node.js, PostgreSQL, REST APIs, deployment

The Complete JavaScript Course: From Zero to Expert | Udemy · Jonas Schmedtmann

93% complete

- Deep-dive into modern JavaScript: closures, async/await, OOP, DOM manipulation

100 Days of Code: The Complete Python Pro Bootcamp | Udemy · Dr. Angela Yu

83% complete

- Python fundamentals through to web scraping, data science basics, and automation

Pontificia Universidad Javeriana | Bogotá, Colombia

Bachelor of Science, Civil Engineering — Completed 2014

- Analytical and systems-thinking foundation; structural problem-solving applicable to software architecture

PROFESSIONAL EXPERIENCE

Tokyo American Club Nihonbashi | Senior Bartender

2023 – Present

- Managed full bar operations: inventory systems, supply ordering, menu design, and staff training
- Created a web app that centralized all bar information, including an AI assistant that helps bartenders find recipes, procedures and members preferences
- Trained and onboarded new staff; developed documentation for company procedures and policies

Pullman Tokyo Tamachi | F&B Supervisor

2022 – 2023

- Managed full bar operations: inventory systems, supply ordering, menu design, and staff training
- Implemented POS workflows using Oracle Micros, streamlining service efficiency across multiple venues
- Trained and onboarded new staff; developed documentation for company procedures and policies

Pullman Tokyo Tamachi | Bartender

2019 – 2022

- Created original cocktail and mocktail recipes; produced house-made syrups and cordials
- Managed inventory and stock control for a high-volume hotel bar

Tokyo American Club | Service Attendant

2017 – 2019

- Provided beverage service across formal dining and sports bar venues
- Handled wine service, storage, and POS management using Abacus software
